

Find the area.

10/2

$\frac{1}{2}bh$
 $bh \div 2$

$\frac{1}{2}h(b_1 + b_2)$
 $\frac{1}{2} \cdot 4 \cdot 14$
 $2 \cdot 14$
 28 sq units

$b \cdot h$
 $8 \cdot 4$
 32 cm^2

Table 6

$$\frac{5}{6} + \frac{1}{4} = 1\frac{1}{12}$$

$\frac{5}{6} \times \frac{1}{4} = \frac{5}{24}$
 $\frac{1}{4} \times \frac{3}{3} = \frac{3}{12} = \frac{6}{24}$
 $\frac{5}{24} + \frac{6}{24} = \frac{11}{24}$
 $1\frac{11}{24} = 1\frac{1}{2}$

Table 1

$$\frac{1}{2} + \frac{3}{4} + \frac{1}{5}$$

$\frac{10}{20} + \frac{15}{20} + \frac{4}{20} = \frac{29}{20}$
 $\frac{29}{20} = 1\frac{9}{20}$
 a NSW

Table 5

$\frac{1}{2} + \frac{3}{4} + \frac{1}{5}$

Smallest common denominator = 20

$\frac{1}{2} \times \frac{10}{10} = \frac{10}{20}$ $\frac{3}{4} \times \frac{5}{5} = \frac{15}{20}$ $\frac{15}{20} + \frac{4}{20} + \frac{10}{20} = \frac{29}{20}$

$\frac{1}{5} \cdot \frac{4}{4} = \frac{4}{20}$

$\frac{19}{20}$

Happy Birth
Eric Melol

1. Thomas helps around the house by doing one chore after school. Each day, Thomas and his aunt use the spinner at right to decide which chore he will do. Here is what Thomas knows:

- The sections on the spinner for “rake leaves” and “do laundry” are the same size.
- The sections for “clean bathroom” and “vacuum” are equal in size and together make up half the spinner.

- a. What is the probability that Thomas will spin “do laundry”?

$$\frac{1}{4} + \frac{1}{4} = \frac{1}{2} + \frac{1}{3} = \frac{5}{6} \quad \frac{1}{6} \text{ left} \div 2 = \frac{1}{12} \text{ do laundry}$$
