

Worksheet 21 "What are Complementary and Supplementary Angles?" Calculators Encouraged

Identify each pair of angles as complementary, supplementary or neither

Write an equation for each description. Solve for x .

7. The complement of $\angle P$ is 73° . Find $m\angle P$.

8. The supplement of $\angle H$ is 34° . Find $m\angle H$.

Sketch a diagram using each set of information then find the measure of each angle.

9. $m\angle 2 = x^\circ$
 $m\angle 3 = 4x^\circ$
 $\angle 2$ and $\angle 3$ are supplementary.

10. $m\angle S = (3x + 1)^\circ$
 $m\angle V = (x + 9)^\circ$
 $\angle S$ and $\angle V$ are complementary.
