## Worksheet 2

You need to show your work when you multiply these decimals, or I will think you used a calculator. You can use one to check your answers. Also you can use a multiplication table.

1. $(5.2)(3.8)$
2. $3.14 \cdot 0.05$
3. $(0.071)(2.2)$
4. $19.6 \cdot 7$

Simplify any fraction answers if possible.
5. $\frac{4}{5} \cdot \frac{5}{8}$
6. $\frac{15}{16} \cdot \frac{4}{9}$
7. $\frac{3}{5} \cdot \frac{10}{13}$
8. $\frac{3}{50} \cdot \frac{7}{10}$
9. Find the area of this figure.
